1.0 PROVISION OF SERVICE

This Agreement overrides and cancels any previous agreements, whether verbal or otherwise, arrangements or commitments between the Customer and TPG relating to ADSL Internet access services.

1.1 DESCRIPTION OF SERVICE

1.1.1 TPG ADSL and ADSL2+ are both high speed, broadband Internet access services which operate on the Customer's copper telephone line. These services allow the Customer to access the Internet and use their PSTN telephone service simultaneously.

1.1.2 The actual speeds of 8000/384k and 24000/1024k plans can vary substantially due to many factors, but not limited to distance from local exchange, quality of phone line, EMI (ElectroMagnetic Interference), the number and type of other services using the line, the capacity of the uplink and customer's modem/router.

1.1.3 Customers on ADSL2+ plans who are more than 3kms from the telephone exchange and/or with poor quality telephone lines may be limited to ADSL2 (G992.3) or ADSL1 (G992.1) modulation for stability purposes and due to technical limitation of Telstra infrastructure.

1.2 AVAILABILITY OF SERVICE

1.2.1 The Customer agrees and understands that in some cases it may not be possible to provide an ADSL/ADSL2+ service due to limitations (RIMs, Sub Exchanges, etc) or incompatibility with a third party carrier's network.

1.2.2 To get a TPG ADSL2+ service, the Customer must be in an area covered by TPG's ADSL2+ network.

1.2.3 Only TPG's ADSL2+ plans are available to Customers applying for broadband at exchanges where TPG ADSL2+ is enabled.

1.2.4 TPG does not guarantee provision of broadband to every applicant. If the service is unavailable, TPG will notify the applicant, and will not be liable for any loss caused by rejection of the Customer's application.

1.2.5 The Customer also accepts that some services offered by a Third Party Carrier, such as PABX systems and certain fax services may be incompatible with the ADSL/ADSL2+ service and may not be available to the Customer after connection.

TPG's broadband business plans are available only to Customers who provide a valid ABN on registration.

1.3 FAULTS AND OUTAGES

1.3.1 The Customer agrees to direct all queries regarding faults/outages of their TPG broadband service to TPG's technical support Help Desk (see contact details online at <http://www.tpg.com.au/about/contact.php>). The Customer is liable for any inquiries to Third Party service providers or Telstra. TPG will invoice the Customer for costs incurred due to the Customer engaging a third party for assistance with their TPG service.

1.4 INSTALLATION OF ADSL

1.4.1 The Customer agrees to nominate an existing standard telephone service for delivery of the ADSL/ADSL2+ service and the Customer will continue to be responsible for all costs of the nominated service to their existing telephone carrier or to the telephone carrier of the Customer's choice.

1.4.2 If the ADSL connection is terminated due to, but not limited to, suspension of the Customer's telephone service or a change of lessee/retail details, a charge will be payable to reconnect the service - refer to Additional ADSL pricing at www.tpg.com.au.

1.4.3 It is the Customer's responsibility to ensure that their computer and software conform to the minimum standards required to access and use TPG ADSL/ADSL2+. Our System Requirements are detailed online at http://www.tpg.com.au/products_services/system_requirements.php

1.4.4 For ADSL/ADSL2+ to be installed, the Customer's nominated telephone line must support it. Partial checks to confirm the telephone line can support ADSL/ADSL2+ are carried out on registration, but this does not guarantee the service can be successfully installed.

1.4.5 The Customer agrees and understands that their application may be rejected or delayed by Telstra due to, but not limited to, transpositioning (the line cannot carry ADSL/ADSL2+). The Customer acknowledges that such issues are outside of TPG's control.

1.4.6 Cancellations due to non ADSL/ADSL2+ provisioning must be thoroughly investigated before breakage of the contract.

1.4.7 The Customer acknowledges that there may be a minor disruption to the nominated standard telephone service during installation.

1.4.8 Where the installation of equipment involves a telephone line, the Customer warrants that the Customer is the legal renter of the telephone line or authorised by the legal renter to consent to the installation.

2.0 Equipment

2.1 REQUIRED EQUIPMENT

2.1.1 The Customer must ensure they have compatible, working equipment installed to access and use their TPG ADSL/ADSL2+ service including, but not limited to: Modem/router, filters, wireless cards and cabling. The Customer will not be reimbursed for access or performance problems caused by equipment which is not supplied by TPG or if the warranty is expired.

2.1.2 The ADSL USB modems supplied by TPG do not work in a routed environment and are not stable in a Mac OS or Pre Windows 98 (2nd edition) environment.

2.2 MODELS OF MODEM/ROUTER SUPPLIED BY TPG

2.2.1 TPG reserves the right to supply an alternative model or brand of modem/router, of similar quality and technical specification to the one displayed on the TPG website when the customer registered.

2.3 TECHNICAL SUPPORT

2.3.1 TPG only provides technical support for makes and models of modem/router supplied by TPG. If the customer is using a model of modem/router not supplied by TPG, assistance may be available directly from the manufacturer's own technical support service.

2.4 FILTERING OF TELEPHONIC DEVICES

2.4.1 Every telephonic device connected to the same telephone line as the ADSL/ADSL2+ service will need to have a suitable filter installed to prevent interference between the device and the broadband service.

2.4.2 One standard filter for a standard telephone handset comes with every modem/router supplied by TPG. A stronger central filter will be required for every cordless telephone handset and for every fax machine on the same phone line as the ADSL/ADSL2+ service.

2.4.3 A central splitter must be installed on the service phone line, if you have:

(a) A monitored 'back to base' security system, which operates via the same phone line as the broadband service.

(b) More than 3 telephony devices connected to your broadband phone line.

(c) A mode 3 phone socket connected to your broadband phone line.

2.4.4 Installation of any required central splitter hardware is at the customer's own expense. The customer should contact an Austel approved technician or Telstra to install the central splitter. For further information contact TPG Sales (contact details are available online at <http://www.tpg.com.au/about/contact.php>).

2.5 DELIVERY

2.5.1 TPG will only deliver ordered equipment to the contact address supplied by the Customer on registration.

2.5.2 In a situation where a Customer is not available to receive delivered equipment and the equipment is returned to TPG, the cost of the return is carried by the Customer. In addition, TPG will charge the Customer to redirect/ resend the returned equipment.

2.5.3 Shipping & handling fees are non-refundable.

2.6 WARRANTY

2.6.1 ADSL/ADSL2+ equipment provided by TPG to the Customer is covered by a 1 year return to base warranty. This means that equipment thought to be faulty must be returned to TPG by the Customer, and at the Customer's expense, for testing, repair or replacement. Replacement units are not provided until testing has been completed, and the unit is found to be faulty by TPG.

2.6.2 The warranty period will commence from the date of despatch from TPG.

2.6.3 The warranty period will not restart if a replacement unit is issued.

2.6.4 If equipment bought from TPG is returned to TPG within the 1 year warranty period is found to be faulty by us, we will replace, repair or credit the Customer for it at our discretion, unless we find the fault was caused by:

(a) A piece of equipment not supplied by TPG.

(b) A Force Majeure Event.

(c) Interference or modification to the equipment not performed by TPG or the manufacturer, or a failure to use the equipment in accordance with the manufacturer's or our specifications / instructions.

(d) Damage caused by the Customer or a third party.

2.6.5 Operation and maintenance of equipment which has not been purchased from TPG and is outside of any warranty provided by TPG, and any associated repair or maintenance costs are solely the Customer's responsibility.

2.7 EQUIPMENT SPECIAL OFFERS

2.7.1 'Equipment special offer' refers to free or discounted equipment (such as modems/routers) offered by TPG.

2.7.2 The Customer may redeem only one equipment special offer per registration, and the offer must be claimed on registration, or in writing within 30 days of registration.

2.7.3 Only offers which are advertised on the TPG website (www.tpg.com.au) for the Customer's particular plan at the time of registration are valid.

2.7.4 Equipment special offers are available to new TPG Customers paying the full ADSL/ADSL2+ setup fee.

2.7.5 Equipment special offers are not available to Customers who transfer (churn) to TPG ADSL from another provider.

2.7.6 Modem/router special offers cannot be exchanged for cash, credit or any other product or service.

3.0 Billing

3.0.1 The Customer agrees to pay all subscription fees and usage charges applicable to the broadband plan they have registered for. The Customer understands that all TPG fees and charges may be altered from time to time by TPG without notice, however, TPG will not increase the subscription fee for the Customer's plan until the end of the Minimum Contract Term.

3.0.2 Failure to pay subscription or usage charges will result in the suspension or termination of the Customer's broadband service. If the service is terminated due to non payment, it will be treated as a cancellation of service by the Customer, who will be required to pay any relevant reconnection or cancellation fees.

3.1 REGISTRATION

3.1.1 The Customer agrees to pay all equipment, delivery and set-up charges and their first subscription fee, once their nominated telephone line passes the initial service qualification test. Set-up charges are different for ADSL and ADSL2+ services. The charges will be as advertised online at the time of registration.

3.1.2 The Customer agrees to pay another full set-up fee to re-install their broadband service, if they provide TPG with incorrect registration details which result in the service being installed on the wrong phone line. The Customer must also provide the correct service details in writing to TPG before re-installation will proceed.

3.1.3 Where transpositioning of the Customer's telephone line is required for ADSL/ADSL2+ to be installed, TPG will charge the set-up fee and first month's subscription fee on receipt of written confirmation that the Customer wishes to proceed with transpositioning. These charges will be refunded if transpositioning fails, but if successfully completed, TPG will bill the Customer for any equipment ordered and related delivery charges.

3.1.4 TPG will commence the Customer's Initial Contract Period and subscription billing cycle on the day TPG ADSL is installed on the Customer's telephone line.

3.2 THE MINIMUM CONTRACT TERM

3.2.1 All TPG broadband plans have a Minimum Contract Term. The Minimum Contract Term is the minimum period for which the Customer must remain on and is liable for payment of their TPG broadband service from the time it is activated. If the Customer cancels the service before the end of the Minimum Term, they will be liable to pay out the remainder of this period, up to a

maximum of \$350.

3.2.2 The Minimum Contract Term varies from plan to plan, and will be as advertised for the Customer's plan at the time of registration.

3.2.3 Once the Minimum Contract Term is over, the Customer's service will continue to renew automatically, and the Customer will continue to be charged for the service, until such time as the Customer cancels the service.

3.3 SUBSCRIPTION FEES

3.3.1 Subscription charges for TPG broadband plans are billed in advance. 6 days prior to the end of each subscription period the Customer's plan will automatically renew, and the following period's subscription fee will be charged.

3.3.2 Subscription fees are charged monthly, quarterly or another period as advertised for the Customer's plan.

3.4 THROTTLING

3.4.1 With some TPG broadband plans the Customer's download speed is throttled (slowed) to a specified speed once the monthly download quota is exceeded until the start of the next billing month.

3.4.2 With the plans which consist of peak and off peak download quota, the Customer's download speed is throttled (slowed) to a specified speed for the period in which the download quota has been exceeded (peak or off peak) until the start of the next billing month.

3.4.3 TPG reserves the right to change the peak and off peak times.

3.4.4 TPG reserves the right to change the broadband speeds during the off-peak hours.

3.5 USAGE (DOWNLOAD) CHARGES

3.5.1 With some TPG broadband plans the Customer is charged for all downloads in excess of a specified monthly download quota, at the rate of 15 cents per megabyte.

3.5.2 Usage charges incurred within a billing month are charged at the end of that billing month.

3.6 PAYMENT OPTIONS

3.6.1 Payment options are credit card and/or direct debit from a nominated bank account, as specified on the TPG website for the plan chosen by the Customer. Accounts paid with an American Express or Diners Club card will incur a surcharge of 2.75% (incl. GST) of the payment amount when TPG debits the card.

3.6.2 Plans which incur download charges, or call charges, can only be paid by credit card. This applies to broadband plans bundled with a Virtual Phone Card (VPC) or VoIP Telephone Service, as well as 'Value' and 'Pay as You Go' plans.

3.6.3 Payment of invoices is required within 30 days of date of invoice. Payment can only be made through "My Account" or by calling the Call Centre. If payment is not made within this time, account suspension will be enforced.

3.6.4 Payment method will be moved from invoice to automatic Credit Card or Direct Debit deduction in the cases where a plan change, relocation, reconnection or reactivation of internet service is required by retail customers (without ABN).

3.6.5 TPG reserves the right to charge \$10 inc. GST per invoice generated and posted for retail customers (without ABN) who have invoice as payment method

4.0 Additional Charging

4.1 ADDITIONAL CHARGES

4.1.1 The Customer understands that all changes to their broadband plan/service may incur fees including, but not limited to: Changes in bandwidth/speed/configuration/plan, relocation of the service to a different address or telephone number, and termination of the service. TPG will charge the relevant fees specified online at www.tpg.com.au/products_services/adsl_additionalprices.php on receipt of the Customer's application.

4.1.2 TPG is not liable for any interruption in the Customer's service while a change to the Customer's plan/service is being processed and implemented. Customers can contact TPG Customer Service on 1300 360 855 for an estimate of how long the service may be disrupted due to a specific change. TPG cannot guarantee such estimates.

4.1.3 TPG will not reimburse subscription charges incurred while a change to the Customer's TPG service is being processed or implemented, and will not be liable for any loss or damages associated with disruption of the service while the change is being implemented.

4.1.4 A change to a Customer's service will only be implemented once TPG receives all necessary information by way of an online application (see https://cyberstore.tpg.com.au/your_account/) or in writing by email, fax or post. Contact details are available online at: <http://www.tpg.com.au/about/contact.php>.

4.2 IP ADDRESSES

4.2.1 TPG broadband plans provide dynamic or static IP addresses as described in the plan specification 'Static IP address' refers to layer 3 or layer 2 (PPPoE) broadband connections where the Customer's router/modem is assigned a specific IP address(s) that is allocated for the time of the contract.

4.2.2 If the Customer has a plan with a static IP address(s), and applies to change their TPG plan/service in any way, TPG will endeavor to retain the Customer's IP address(s) but reserves the right to assign the Customer a new IP address(s).

4.3 RECONNECTION OR RELOCATION OF ADSL SERVICE

4.3.1 Any interruption/change to the Customer's telephone service will cause the ADSL/ADSL2+ service on that line to be disconnected, and the Customer will have to order, and pay a fee for reconnection/relocation of the service (as per online pricing at www.tpg.com.au/products_services/adsl_additionalprices.php). Such interruptions/changes include, but are not limited to:

- Cancellation/suspension of your telephone account.
- Change of service address (even if you keep the same telephone number).
- Change of telephone number (even if your address does not change).
- Change of telephone service lessee details.
- Installation of an ADSL/ADSL2+ incompatible product on the telephone line.

4.3.2 If the Customer's broadband service is terminated automatically, as in 1.4 e) above, it is the Customer's responsibility to inform TPG. If the Customer chooses not to reconnect their service, all of the usual conditions relating

to cancelling an ADSL/ADSL2+ service will apply, including the fee for early contract termination.

4.3.3 If a Customer has a TPG ADSL2+ service and changes their location to an area where TPG ADSL2+ is not available, they may choose one of the following 2 options:

- Change to a current TPG ADSL plan, with a new Minimum Contract Term.
- Cancel the TPG ADSL2+ service and pay out any remaining portion of the Minimum Contract Term up to a maximum of \$350.

4.3.4 If the Customer applies to relocate/reconnect their service during the Minimum Contract Term, and TPG determines that neither ADSL nor ADSL2+ are able to be provisioned at the their new address / telephone number, the Customer will be charged the remaining portion of the Minimum Contract Term, up to a maximum of \$350.

4.3.5 If relocation/reconnection of the Customer's service is delayed due to a factor outside of TPG's control (for example, there are no available ADSL ports or transpositioning of the telephone line is required), the full early contract termination fee will apply if the Customer chooses not to proceed.

4.3.6 The Customer's Minimum Contract Term will restart on reconnection/relocation of the service. If, at the same time, the Customer changes their broadband plan, they will begin a new Minimum Contract Term as specified for that plan.

4.3.7 If the Customer's existing plan is no longer advertised on the TPG website at the time the relocation/reconnection is applied for, the Customer may be required to choose a new plan from TPG's current range, and begin a new Minimum Contract Term as specified for that plan.

4.4 CHANGE OF PLAN

4.4.1 Migrating to another TPG ADSL/ADSL2+ plan does not reduce the Minimum Contract Term or terminate the original agreement or result in a reduction of the charges payable by the Customer to TPG. The new plan subscription and/or usage charges will apply from the date of the migration.

4.4.2 The Customer will be charged a plan change fee on receipt of their application to change their broadband plan, as displayed online at www.tpg.com.au/products_services/adsl_additionalprices.php.

4.4.3 The Customer will be charged for any remaining portion of the Minimum Contract Term of their existing plan (up to a maximum of \$55), for changing to an ADSL plan with lower monthly access charge inside contract period.

4.4.4 The Customer will be charged the first subscription fee for their new plan at the time their plan change application is processed. Any paid, but unused portion of the Customer's old plan, as at the date of migration, will be credited to the Customer's account.
